EDUCATION

B.Tech in Computer Science

SKILLS

Python, FastAPI, LlamaIndex, RAG, ChromaDB, PostgreSQL, Docker, Pytest

EXPERIENCE & PROJECTS

Enterprise Document Search RAG Pipeline

- Developed a Retrieval-Augmented Generation (RAG) system with LlamaIndex and ChromaDB.
- Built REST API using Python FastAPI with PostgreSQL metadata storage.
- Containerized application with Docker for seamless local deployment.
- Implemented unit tests with Pytest covering embedding generation and retrieval queries.
